Order

Dated:-11/02/2016.

1.0 Introduction

The Bihar Electricity Regulatory Commission (BERC) considering, the recommendation of the Electricity Supply Code Review Panel (ESCRP), constituted under clause 1.2 of the Bihar Electricity Supply Code 2007 (BESC 2007), the prayer of NBPDC and SBPDCL in case no. 35/2015, other petitions regarding amendments in various regulations under BESC 2007 and also on the changes made in terms & conditions of the tariff schedule proposed to circulate the consultative paper on the 5th Amendment in the BESC 2007.

The consultative paper for 5th Amendment in the BESC 2007 contained the following amendments:-

- (i) **Amendment in clause 3.4** :-Inclusion of supply voltage of 220 KV for a minimum contract demand of 10,000 KVA.
- (ii) **Addition of a New sub clause 7.4 (i)**:- To specify the procedure if the actual recorded demand of a consumer exceeds 110% of the contracted demand consecutively for three months.
- (iii) **Addition of a new sub clause 7.4 (j)**:- To specify the procedure if on inspection the connected load of a consumer is found to be in excess over the contracted/sanctioned load.
- (iv) **Amendment in sub clause 7.11 (3)** :-To make a provision that the application for enhancement of the contract demand shall not be rejected on the ground of any arrears of payment of the licensee's dues if the Electricity connection of the consumer is running.
- (v) **Amendment in sub clause 7.15 (3)**:- For making a provision to work out the requirement of additional security_amount to be deposited by a H.T. consumer on annual basis like L.T. consumer.
- (vi) **Addition of a new sub clause 9.20 (cc)**:-To make a provision to indicate/mention in the bill total hours of supply during billing cycle.
- (vii) **Amendment in clause 9.23**:-To specify the obligation of the distribution licensee to provide the details of arrears and delayed payment surcharge (DPS) in the bill.
- (viii) **Amendment in clause 4.11** :-Approval of revised format of Application form for supply of Electricity at Low Tension.
- (ix) **Amendment in clause 9.1** :- To specify the quarterly meter reading and monthly billing procedure for Kutir Jyoti and Domestic-I consumers in rural areas.
- (x) **Deletion/Amendment of clause 9.15** :- proposal was to delete or modify the clause 9.15 in respect of the responsibility of the meter reader to note down the details of abnormality found during meter reading and to file a report to the concerned officer.

2.0 Inviting Comments/suggestions/objections:-

For obtaining suggestions/objections/comments of the stake holders and general public on the consultative paper, Public Notice was issued

vide notice no. 37 dated 06.10.2015 which were published in the following news papers fixing the date of hearing on 25.11.2015.

| Sl. No. | Name of News Papers | Date of publication |
|---------|--------------------------------|---------------------|
| 1 | Dainik Jagaran (Hindi) Bihar | 08-10-2015 |
| 2 | Prabhat Khaber (Hindi) Bihar | 08-10-2015 |
| 3 | Times of India (English) Bihar | 08-10-2015 |

The Notice no. 37 dated 06.10.2015 along with the consultative paper covering the proposed amendments was also placed on the website of the commission. Copy of the consultative paper had also been made available in the office of the commission for taking note of the proposed amendments and for obtaining by the interested person if any.

3.0 Hearings and objections/suggestions

The Commission conducted hearing on the proposed 5th Amendments in the Bihar Electricity Supply Code 2007 on 25.11.2015. No Comment/Suggestion was received from stake holders or consumer's association or general public. Representatives of the NBPDC, SBPDCL, and BSPHCL were also present during hearing, and they too did not submit their pleadings.

Meanwhile, suggestion on the proposal of amendment in clause 3.4, addition of a new sub clause 7.4 (j), amendment in clauses 9.1 and 9.15 was received from Nawal Kishore Roy, Macharhatta Patna City on 01.12.2015, which have been dealt with observation of the Commission hereunder.

4.0 observation of the Commission on suggestion of Sri Nawal Kishore Roy.

4.1 Amendment in Clause 3.4

Sri Nawal Kishore Raoy has suggested that the option for availing supply either at 230 volts or 400 volts by LT Agriculture and LT Industrial consumers stated below clause 3.4 may be deleted because it contradicts the policies and Tariff order passed by BERC, as minimum Load for 400 volts should be 5 KW.

The Commission understands that the most of the Pvt. Agriculture as well as small LT Industrial consumers have load of 3 to 5 HP of induction motors which essentially requires 3 phase power supply. Also as per clause 2.2 of the code in case of any inconsistency

between the Code and Tariff order in force, the provisions and meanings contained in the Electricity Supply Code shall prevail. Therefore in view of the above the Commission does not consider proper to delete the portion suggested by Sri Roy and approves the proposal as proposed in the consultative paper.

4.2 Addition of a new sub clause 7.4 (j)

In case the connected load is found excess over the sanctioned load it has been proposed that the consumers will be asked to get the load sanctioned within thirty days and on failure the licensee may disconnect the line or enhance the sanctioned/contracted load. However Sri Roy has suggested that the line should not be disconnected and licensee should enhance the sanctioned load.

The Commission does not consider it proper to debar the licensee from disconnection of line in case the consumer does not respond to the notice within thirty days to regularise the unauthorised load. Also taking into consideration the existing provision under the terms and condition of the H.T. tariff the commission approves the proposal with some modifications.

4.3 Amendment in Clause 9.1

The proposal is to allow quarterly meter reading and monthly billing on MMC or average basis to Kutir Jyoti and Domestic-I in rural areas. Sri Nawal Kishore Roy has suggested that it is the responsibility of licensee to take proper monthly reading and serve the monthly bill accordingly.

The Commission appreciates the suggestion of Sri Roy. However the Commission also appreciates the difficulties and expenditure involved towards the monthly or bimonthly meter reading of the sparsely located DS-I & KJ in rural areas once in two month as required under existing provision of the supply code. The provision of quarterly meter reading will enable the Distribution licensee to stagger the total consumer in three blocks which will reduce the work load of meter reader.

Therefore, the Commission approves the proposal of quarterly meter reading of DS-I and KJ in rural areas with monthly billing on average of MMC basis as the case maybe.

4.4 Amendment in Clause 9.15

The existing provision is that if the meter reader finds any abnormality in the conditions of meter/seal and condition of LCD/LED of electronic meter he shall file a report to the concerned officer.

The licensee has proposed to delete or modify it. In this context Sri Roy comments that the quality of meter reading is very poor. In such a case the extra work load may decrease the quality of meter reading. This responsibility should be given to Junior Electrical Engineers (JEEs)/Assistant Electrical Engineers (AEEs) of the concerned field areas, and to revise the proposal to give responsibility to JEEs/AEEs. The Commission considers that it would not be proper to relieve the meter reader of his duty to report any abnormality which he visualise during the time of taking monthly meter reading as a representative of the licensee. However, the commission is also of the view that non submission of report by meter reader cannot be construed that meter was not tampered until the same is established in MRI report or meter testing at laboratory. So the Commission considers that non submission of report by meter reader cannot over rule the report down loaded through Meter Reading Instrument (MRI) or Meter laboratory test. Accordingly the Commission approves the proposal with aforesaid modifications.

Further the Commission has not received any comment/suggestion/objection on the remaining proposals of amendment stated in para-1 (One) of this order. NBPDC and SBPDCL have not submitted any comments/suggestions on the proposal. Commission understands that they agree to the proposal. Under the Circumstances, the commission taking into consideration the proposals as circulated through consultative paper and the views expressed by Sri Roy approves the proposed amendments with necessary modifications as detailed under.

Order

5.0 In view of the above observation the Commission approves the amendments to be notified in 5th Amendment of the Supply Code 2007 as detailed below.

Amendment in chapter 3

5.1 Amendment in clause 3.4

The Clause 3.4 shall be substituted by the following

"The supply voltage for different contract demands shall be normally as follows:-

| Supply Voltage | Minimum Contract Demand | Maximum Contract Demand |
|-----------------------|--------------------------------|--------------------------------|
| 230 Volts | - | Upto 7 KW |
| 400 Volts | 5 KW and above (3 phase) | 70 KW |
| 11 KV | 50 KVA | 1500 KVA |
| 33 KV | 1000 KVA | 15000KVA |
| 132 KV | 7500 KVA | - |
| 220 KV | 10,000 KVA | - |

L.T Agriculture and L.T Industrial consumers of load between 2KW & 5KW shall have option to avail supply at 230 Volts or 400 Volts.

Amendment in chapter 4

5.2 Amendment in clause 4.11

The format of the application form as provided in Annexure-1 (L.T. Connection) shall be replaced by the format of the application form provided in Annexure 1 (Hindi version) and Annexure-1A (English version).

Amendment in chapter 7

5.3 Addition of new sub clause 7.4 (i)

A new sub clause 7.4 (i) shall be added at the end of existing sub clause 7.4 (h) of the code.

(a) "If the actual recorded demand of a consumer having demand based tariff exceeds 110% of the contracted demand, consecutively for three months, the licensee shall issue a notice informing the consumer to get additional contract demand sanctioned as per the tariff or to limit their drawl as per their contract.

In case the consumer does not respond to the notice within 30 days of issue of notice to get additional demand sanctioned as per the tariff or limit their drawal as per the contract, the licensee

may disconnect the supply to the consumer, after serving fifteen days notice.

However, the distribution licensee may revise and enhance the contract demand as per the tariff of the consumer to the extent of highest demand recorded in the past three months of the violation, provided the consumer agrees for the same.

5.4 Addition of new sub clause 7.4 (j)

A new sub clause 7.4 (j) shall be added at the end of sub clause 7.4 (i)

" If on inspection of premises of a consumer having connected load based tariff, the connected load is found to be in excess over the contracted/ sanctioned load, the licensee shall issue a notice and inform the consumer to get additional connected load sanctioned as per the tariff or limit the drawl as per sanctioned load.

In case the consumer does not respond to the notice within 30 days of issue of notice to get additional load sanctioned as per the tariff or limit drawl as per sanctioned load, the licensee may disconnect the supply to the consumer after serving fifteen days notice,

However the distribution licensee may revise and enhance the sanctioned load as per the tariff of the consumer to the extent of connected load found on inspection provided the consumer agrees for the same.

5.5 Amendment in sub clause 7.11(3)

The sub Clause 7.11 (3) shall be substituted by the following-

"The application for enhancement of the contract demand shall not be rejected on the ground of any arrears of payment of the licensee's dues, if the electricity connection of the consumer is running"

5.6 Amendment in sub clause 7.15 (3)

The following portion appearing after previous 12 months in sub clause 7.15(3) of the code shall be deleted

"For LT consumer and half yearly on the basis of consumption during the previous six months for HT/EHT consumers".

Amendment in Chapter 9

5.7 Amendment in clause 9.1

"In the chart under clause 9.1 the first row shall be replaced by the following.

| Consumer category | Meter reading & billing |
|--|---|
| Domestic Rural (DS-I) and Kutir Jyoti (KJ) | Meter Reading - Quarterly Billing - Monthly Explanation:-Every one Third of the consumer will be billed at appropriate slab-rate on actual quarterly meter reading adjusting the unit billed on average or MMC basis for previous two months during which reading was not taken and billing was done on average or MMC basis. |

5.8 Amendment in clause 9.15

The following shall be added at the end of clause 9.15 of the code

"However non filing of report or abnormality report, if any filed by the meter reader shall not over rule the Meter Reading Instrument (MRI) report and/or the report of National Accreditation Board of Testing and Calibration Laboratory (NABAL) accredited Laboratory."

5.9 Addition of new sub clause 9.20 (cc)

A new sub clause 9.20 (cc) shall be added as stated below:-

"Total hours of supply during billing cycle shall be indicated/mentioned in the bill. However this provision shall apply to such consumers only where energy meter has facility of recording total hours of supply during billing cycle.

5.10 Amendment in clause 9.23

The following shall be added at the end of Clause 9.23:-

"However, if sought by the consumer(s), the licensee shall have an obligation to provide the details of arrears and DPS indicating clearly the period and amount of the same."

The amendment shall be applicable from the date of publication in the official gazette.

A copy of the order be sent to BSPHCL, NBPDC and SBPDCL.

The amendment shall be notified and published in the official gazette of the state.

Amended application form under clause 4.11 is annexed as Annexure (I) (Hindi Version) and Annexure (IA) English version.
